A factory-direct line for engineered plastic components.

Parshwa Plastics manufactures engineered plastic components in Gujarat, India. Our capabilities include mould development, insert moulding, overmoulding, multi-stage moulding, post-mould machining, and assembly.

Examples of real production parts delivered.

EVIDENCE

Proof you can share

- **40 years in production.**
- **ISO 9001 certified for 18 continuous years.** Current certificate issued by TÜV Austria.
- **Current customer relationships lasting more than 30 years.**
- **Photographs of 75 engineering parts and four illustrated case studies.**

REPRESENTATIVE SUPPORT

Support behind the line

- **One commercial contact with direct factory technical support.**
- **Complete standard RFQs normally quoted within three business days.**
- **Clear questions when information is missing.**
- **Production and quality follow-through from one accountable supplier.**

REPRESENTATIVE OPPORTUNITY

A custom injection-moulding line with protected named accounts and direct factory support.

OPPORTUNITIES

Where the line can help

- New components and new tooling.
- Existing components requiring a second source.
- Transferred moulds or tooling replacements.
- Components involving inserts, overmoulding, multiple moulding stages, machining, or assembly.

CAPABILITIES

What you can offer

- Precision custom injection moulding for engineered plastic components.
- Mould development and production launch.
- Insert moulding, overmoulding, and multi-stage moulding.
- Post-mould machining, inspection, assembly, and export packing.

REP TERMS

Commission

- **8%** on collected Commissionable Net Sales up to US$100,000
- **6%** on the portion from US$100,000 to US$1,000,000
- **3%** on the portion from US$1,000,000 to US$2,000,000
- **1%** on the portion above US$2,000,000
- **3%** on collected tooling receipts
- The schedule is calculated separately for each approved named account per calendar year. Commission statements and payment are issued within 15 days after cleared buyer payment.

REP SUPPORT

What you get from us

- A gallery of 75 professionally photographed engineering parts manufactured by Parshwa Plastics.
- Four illustrated case studies and the current ISO certificate.
- Selected inspection and shipment documents when useful to a buyer.
- Direct factory answers on technical questions.
- Approved named accounts protected in writing.

WORKING TOGETHER

How we work with you

- You make the introduction and remain commercially involved.
- Parshwa Plastics handles technical review, quoting, production, and quality follow-through.
- The buyer receives clear answers and a complete quotation when the required information is available.
- Direct buyer-factory communication does not remove commission rights on an approved account.

START A CONVERSATION

Discuss the line

- A brief conversation to see whether the line complements the manufacturers you already serve.
